

## LTC 9000 Progressive Care Mattress

Adjustable Pressure Redistribution

Versatile design allows multiple configurations to meet specific patient needs. Use a combination of interchangeable foam and/or air inserts to optimize care and comfort. A removable 'single envelope' cover protects internal components, ensuring easy cleaning.

## **Patient Considerations for this Mattress:**

Pressure Distribution	> Best choice for individuals at risk for pressure sore development when
	air-filled or gel inserts used in high risk areas that may change location over time
Firmness	> Firmness can be adjusted to suit individual need
Temperature	> Best choice for prevention of heat build-up and sweating when used with add gel or air-filled inserts
Transfers	<ul> <li>Best choice for bedside stability and preventing entrapment when used with full height transfer borders</li> </ul>
Bed Mobility	> Viscoelastic top layer may impair bed mobility for some individuals
Specifications:	
Top Layer Inserts	<ul> <li>&gt; Choose a combination of:         <ul> <li>a) Gel-in foam - Gel infused viscoelastic foam provides superior pressure distribution plus the cooling affect of gel</li> <li>b) Medium-firm viscoelastic foam - conforms to body contours, providing superior pressure redistribution</li> <li>c) Medium-soft polyurethane foam - provides firm support</li> <li>d) Both air-filled and gel inserts are available for your dealer Contact your local supplier or EMP for details</li> </ul> </li> </ul>
Core Foam	> Medium-firm core
Transfer Borders	Choose 3" or 6" height. 3" transfer border allows top foam layer to extend over full mattress width. 6" transfer border adds firmness along sides
Cover	<ul> <li>Fluid-proof, Non-allergenic, antibacterial, anti-microbial single envelope cover with three sided double slider zipper</li> </ul>
Misc	> Designed for use on all hospital beds
Standard Sizes: (C	istom sizes also available by quotation )
